Cuatrecasas

ABOUT THE FIRM

Cuatrecasas is a leading law firm advising on all areas of business law, helping our clients with the most demanding matters wherever they are based.

We have a sectoral approach and focus on all types of business, with extensive knowledge and experience in the most sophisticated advice, supporting digital transformation to offer differential and valuable solutions.

We add value thanks to the high specialization of our teams, made up of lawyers from different practices, who offer efficient solutions through a transversal vision of our clients' businesses.

Why Cuatrecasas

Innovative firm – Our innovation efforts have been consistently recognized by the Financial Times, which honored us as the Most Innovative Firm in Continental Europe in 2023, 2019, and 2018. More recently, we were recognized as the Most Innovative Firm in Continental Europe over the past two decades (2005–2025).

M&A leadership – We are one of the law firms with the largest market share (Iberian Peninsula) for advised M&A deals according to leading international rankings. In 2020 and 2021, we were named "Spain M&A Legal Advisor of the Year" by Mergermarket.

ESG commitment – We apply ESG criteria to our work approach and to the services we provide to promote initiatives that generate a social impact, help protect the environment, and improve our corporate governance policies.

AI solutions – We foster an innovative legal culture that combines technological training, procedures, and resources. We launched CELIA (Cuatrecasas Expert Legal AI), a project based on large language models (LLM), using OpenAI and GPT-4 technology. This encompasses all our AI-related projects, such as application development, digital training, adoption encouragement, market monitoring, pilot testing, and technical support.

Ecosystem thinking - We have created Cuatrecasas Innova, a new brand that brings together all our open innovation initiatives, including Cuatrecasas Acelera, Cuatrecasas Fast Track, Cuatrecasas Ventures, the podcast series Innovating with Startups, legal seminars, and Food4Brains. These initiatives aim to bridge gaps, enrich knowledge flow, and foster synergies in the business and legal communities.
