Guyer & Regules

ABOUT THE FIRM

Guyer & Regules is considered Uruguay's blue-chip firm and the first choice for international and domestic complex legal, accounting, and tax work. Our reputation is based on the largest group of the most experienced partners in the country, who lead a solid team of internationally trained professionals with experts in every field of business law and promote a culture of innovation within the firm. Performing with excellence, expertise, value, responsiveness, creativity, and consistency is not enough. At Guyer & Regules, we strive to grow our capacity to develop strong and mutually rewarding personal working relationships with the people who work at the institutions we serve. We help them serve their institutions - our clients - better. And those special personal working relationships are what enable us to leverage all those other qualities they expect from a top firm. The Guyer way of serving also implies embracing diversity, cultivating inclusion, and promoting environmental stewardship. We have a strong vocation for service rooted in our DNA, and this is reflected in our long history of providing pro bono work at the level of excellence that defines Guyer & Regules.
