Pellerano Nadal

ABOUT THE FIRM

Pellerano Nadal is a full-service law firm with a talented team with more than 40 years of experience providing first-rate legal and business consulting services. Our team has represented multinational and local clients in complex cross-border and domestic transactions, as well as counselling clients looking to do business in the Dominican Republic in a broad range of industries. The team also assists clients when challenges and disputes arise during the course of their business activities. Our business consulting practice includes services related to tax, environment, project and business development, government and institutional relations, public procurement, and business outsourcing.

At Pellerano Nadal, we have a team that has served as counsel on a series of landmark transactions in the Dominican Republic, including: the largest acquisition of a Dominican company at the time, valued at over US$2.5 billion; the largest foreign investment in the country, for over US$6 billion; the only international IPO and listing of a Dominican company on the New York Stock Exchange; and, the first ever issuance of debt in the international capital markets by the Dominican government, on which the team continues to advise on for subsequent sovereign bond issuances.

Amongst our team, we have members: (i) with master's degrees (LL.Ms and MBAs) from top local and international graduate schools; (ii) admitted to practice law in other jurisdictions outside the Dominican Republic; and (iii) with international experience in foreign law firms and investment banking.
